**What I think about becomes real.**

**I play to my strengths. I support my weak areas with talented collaborators.**

**I take advice from people who have actual experience.**

**I spend time with people who make me feel better about myself. I always work to make others feel good too.**

**Following dreams is easier with money in the bank. I save what I can.**

**I keep an idea book and write down movie ideas as they come my way.**

**My word is trust. I never break my word.**

**I deserve Hollywood success because I am creative and passionate.**

**I always bring my ideas to fruition.**
